DID YOU STAND IN THOSE LONG LINES?

On Monday, May 14, 2007 the United States Postal Service raised the cost of a first class postage stamp by two cents. As a result many,

many people went to their local post office to buy two cent stamps to add to their thirty-nine cent stamps.

The lines were unbelievably long and slow. Many post offices ran out of two cent stamps. As a result many people had to stand in line again to buy the additional postage needed to pay their bills by mail.

Isn't there an easier way to pay bills?

Yes! METRO offers [Online Bill Payment Service](#) for all members with a METRO checking account.

It's so easy. Layout your bills in to two groups. Scheduled and Periodic. In the first group, "Scheduled", put all of your monthly, quarterly, semi-annual and annual bills. You can create a schedule in your METRO Bill Payment calendar to pay all of these bills when they are normally due. Rest assured they will be paid on time based on the dates you establish. You just need to be sure the funds are in your account to cover the payment.

Next, look at you're your "Periodic" bills. These come up at different times

and for various amounts. Doctor bills, other health care bills, and real estate taxes are typical examples. When you are ready to pay these bills you simply access METRO's Online Bill Payment web page through your computer. Follow the prompts and set up these bills for payment.

Again, your bills will be paid at the time and for the amount you set up.

No searching for stamps, trips to the post office to wait in line, and then, finding a mail box.

Plus, **you save money** by not buying stamps to put on all those envelopes each month. Also, by paying your bills electronically you use fewer paper checks. You spend less time re-ordering checks **AND** you save more money by not paying for new supplies of checks.

Life's short. Pay your bills on-line. Let METRO make your tasks easier.
